

GENETICS EDUCATION AND ENGAGEMENT FELLOWSHIP

Application available: February 26th, 2018

Application deadline: April 27th, 2018.

Rapid advances in genetics and genomics research and personalized medicine have been paralleled by innovations in science education and public engagement. The American Society of Human Genetics (ASHG) and the National Human Genome Research Institute (NHGRI) co-sponsor the Genetics Education & Engagement Fellowship to support early-career genetics professionals wishing to transition to careers in genetics education and public engagement. This unique fellowship provides several experiences: working with NHGRI's Education and Community Involvement Branch; working with the education department at ASHG; and an optional third experience working with another organization involved in substantive science education or public engagement initiatives.

How to Apply:

For a detailed description of the fellowship activities, qualifications and how to apply, visit http://www.ashg.org/education/education_fellowship.shtml

About ASHG

The American Society of Human Genetics (ASHG), founded in 1948, is the primary professional membership organization for human genetics specialists worldwide. The Society's nearly 8,000 members include researchers, academicians, clinicians, laboratory practice professionals, genetic counselors, nurses and others who have a special interest in the field of human genetics. Our members work in a wide range of settings, including universities, hospitals, institutes, and medical and research laboratories.

ASHG offers competitive compensation and a comprehensive, generous benefits package.
