

National Institutes of Health

State Funding Facts for FY 2016

The **National Institutes of Health (NIH)** is the nation's primary medical research agency, supporting research efforts in all 50 states and the District of Columbia. Its **mission** is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce the burdens of illness and disability.

HAWAII BY THE NUMBERS¹

- \$54 million in NIH funding
- 10 NIH-funded institutions
- 86 NIH grants awarded
- 2 Congressional districts with NIH grants

NIH Funding of Select Hawaii Institutions

Institution	Total Funding
University of Hawai'i (Manoa and Hilo)	\$45,815,322
Pacific Health Research and Education Institute	\$2,640,684
Hawaii Pacific University	\$409,766
Queen's Medical Center	\$325,386
Chaminade University of Honolulu	\$90,817

NIH Funding Improves Health in Hawaii

- 📍 The University of Hawaii is home to an NCI-designated cancer center.
- 📍 In FY 2016, Hawaii institutions held **four** active Institutional Development Award (IDeA) grants.
- 📍 **15** NIH-supported clinical trials were initiated at Hawaii institutions in FY 2016.²

INVESTMENT IN NIH RESEARCH BENEFITS THE HAWAII ECONOMY

- 📍 Hawaii institutions received more than \$400,000 in NIH grants in FY 2016 to train the next generation of innovative scientists.¹
- 📍 Three Hawaii businesses received NIH funding totaling \$3.6 million for the research and development of technologies with potential commercial applications.¹
- 📍 In 2014, Hawaii was home to 201 bioscience business establishments. Residents held 3,301 bioscience industry jobs, and the average annual wage in the bioscience sector was \$17,443 higher than the private sector overall.³
