

National Institutes of Health

State Funding Facts for FY 2016

The National Institutes of Health (NIH) is the nation's primary medical research agency, supporting research efforts in all 50 states and the District of Columbia. Its **mission** is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce the burdens of illness and disability.

FLORIDA BY THE NUMBERS¹

- \$532 million in NIH funding
- 61 NIH-funded institutions
- 1,196 NIH grants awarded
- 20 Congressional districts with NIH grants
