<td>Science Associate I</td>
<td>Exempt</td>
<td>Publication Director</td>
<td>AAI Journal Office (The Journal of Immunology)</td>
<td>3/25/2016</td>
</tr>
</tbody>
</table>

**PRIMARY FUNCTIONS:**
- Assists in directing the scientific aspects of the peer-review process of *The Journal of Immunology*. The Science Associate will be responsible for the quality of all aspects of this process, including the appropriate assignment of editors and reviewers, and monitoring their review performance.
- Provides scientific expertise and direction to ongoing AAI activities.

**MAJOR DUTIES AND RESPONSIBILITIES:**
- To work with the Senior Science Coordinator in all aspects of developing a comprehensive and adequate reviewer database
- To evaluate the content of submitted full-length manuscripts and appropriately assign Deputy and Section Editors based on their expertise and other established administrative criteria (e.g., availability, conflicts)
- Use an in-house database to establish a list of appropriate reviewers, based on scientific expertise and other established administrative criteria, for full-length manuscripts as well as manuscripts submitted to special sections
- To prepare written summaries of selected articles for “In This Issue”
- To carry out Social Media work, including regular posts in Twitter
- To assist with oral interviews of senior scientists
- To assist with other written materials for AAI as requested
- To assist the Publications Director, Senior Editorial Manager, and any other staff with the peer review process
- To carry out image forensics analyses on accepted manuscripts
- To work with the Editor-in-Chief and the Publications Director to handle all ethics/misconduct cases
- To assist the Publication Director with the implementation of new initiatives
- To frequently attend meetings and seminars to fulfill the mandate of staying current with the field of immunology, to identify scientists who may serve as editors, reviewers, authors and annual meeting participants; and to promote *The Journal of Immunology*
- To serve as a scientific resource
- To assist with any special projects and duties as assigned

Positions, duties and responsibilities may be reassigned or modified by Management and as deemed necessary to fulfill the mission of AAI and the goals of *The JI*.

**EDUCATION LEVEL AND SUBJECT/MAJOR**

Professional Degree (Ph.D., M.D., or related) in immunology, or related biomedical field with fluency in immunology

**EXPERIENCE**

**Science Knowledge**

Applicant should:
- Maintain a professional interest in, and awareness of, the field of immunology, its advancements and areas of opportunity
- Possess an understanding of, and experience in, the research process including training, conducting research, and publishing
- Have knowledge of the concepts and theories of journal peer-review

**Technical Skills and Experience**

Applicant should possess:
- Working ability with electronic publications (minimally as an author)
- Excellent electronic communications skills
- Competence with standard software, including Microsoft Office (Word, Excel, PowerPoint) and Photoshop
- Working ability with databases, PubMed, and other search engines
- Familiarity and working ability with various forms of popular social media

Experience with Illustrator, and/or proficiency with software designed to detect digital image manipulation would be a plus.

**Management Experience**

Applicant should possess demonstrable experience in independent project management.

**Personnel and Office Experience**

Applicant should possess:
- The ability to establish and maintain effective working relationships with staff
- Excellent management, social and professional business skills

**Professional Representation**

Applicant should possess a high level of comfort in dealing with the public and “customers”, “networking”, and promoting the goals of an organization convincingly and articulately.

**Writing and Speaking Skills**

Applicant should possess:
- Extensive writing and editing experience (required)
- Public speaking and presentation ability
- Excellent professional and interpersonal communication skills

It is not mandatory that the applicant have journal management and manuscript peer review administration experience but this would be a plus.

**SPECIAL REQUIREMENTS**

*Indicate any special or professional requirements, e.g., licenses, certifications, necessary for this position.*

None

**COMMENTS:**

It is expected that the Science Associate I shall possess a desire to promote the professional standing of AAI and *The JI*, be willing to learn new skills, comprehensively understanding of the goals of AAI and *The JI*, and to take the initiative to identify opportunities for growth.
